Personal Information

Title: Computer Engineering | Full Stack Web Developer at Ateion

Summary

Dynamic Full Stack Developer with experience at Ateion, skilled in HTML, CSS, and JavaScript. Proven ability to enhance web application performance and user experience through rigorous testing and debugging. Strong community engagement skills demonstrated as a Campus Ambassador, fostering collaboration and knowledge sharing among peers.

Certifications

- National Centre for Financial Education - Hack2Skill
- JPMorganChase - Software Engineering Job Simulation
- Generative AI Literacy - Simplilearn
- Introduction to Programming Using Python - Udemy
- Honeywell Future Skills Edge Program on Artificial Intelligence (80 Hours)
- Augmented and Virtual Reality Acceleration - CDAC
- TCS ION Career Edge - Young Professional
- Introduction to Cybersecurity - Simplilearn

Skills

- Frontend technologies: HTML, CSS, and JavaScript
- Full stack development
- API development
- Backend technology frameworks
- Software development: Python,C,Java,C++
- Web application quality assurance
- Security testing
- User experience testing
- Technical documentation
- Community engagement
- Module bundling

Accomplishments

- First-Year CGPA: 9.89
- First-Semester First Ranker
- Patent Holder recognized by Government of India
- State-Level Ramanujan Mathematics Competition Participant
- Cummins Scholar

Experience

Full Stack Developer Intern | Innovation Hacks - Pune, India | 08/2026 - Current

- Troubleshooted technical issues related to software development life cycle.
- Maintained strong education in latest technologies, software, and hardware products for use in various projects.
- Created and implemented firewalls, encryption strategies and other critical security measures.
- Promoted hackathon initiatives through social media and community outreach.

Full Stack Web Developer Intern | Ateion - Pune, India | 06/2026 - Current

- Developed user-friendly web applications using HTML, CSS, and JavaScript.
- Assisted in the integration of back-end services with front-end components.
- Conducted testing and debugging to ensure website functionality and performance.
- Collaborated with team members to troubleshoot and resolve software issues.
- Participated in code reviews to maintain coding standards and best practices.
- Utilized Git for version control in collaborative projects and deployments.
- Kept detailed documentation on test plans, procedures and end results.
- Established hosting for each website and completed go-live process by uploading sites to host account.

Technical Member | Club ZEN & CESA | 09/2025 - Current

- Coordinated technical lectures and hands-on workshops, optimizing scheduling and enhancing participant engagement.
- Contributed to design and enhancement of student projects in web development, automation.
- Provided backend and on-site technical support during events for smooth execution.
- Assisted in planning and executing intra-college and inter-college hackathons, managing logistics and judging criteria.
- Partnered with student organizations to host joint events, expanding networking opportunities.
- Created promotional materials that increased visibility and boosted attendance of club activities.
- Documented projects, event outcomes, and feedback to drive continuous improvement.

Team Lead Researcher — Incident Response & SOC Operations | RCP R&D Team | 04/2026 - 07/2026

- Led investigations into zero-day exploits and APT activity, producing actionable intelligence reports.
- Integrated SIEM and SOAR platforms into SOC operations, enabling faster detection and automated remediation.
- Established standardized playbooks and escalation procedures, improving incident response consistency and clarity.
- Designed and implemented automated scripts/tools to reduce incident triage time by 40%.

- Coordinated with developers and system admins to patch vulnerabilities, strengthening endpoint security.
- Conducted workshops on incident response best practices, enhancing junior analysts' skills in malware analysis.
- Defined performance indicators such as MTTR and false positive rate, providing measurable insights into SOC performance.
- Authored detailed post-incident reports and contributed to R&D knowledge base for future reference.

Campus Ambassador | Jyesta Corporate Entity - Teachnook - Acmegrade | 01/2026 - 03/2026

- Engaged students through informative campus events and presentations.
- Organized workshops and engagement events to foster community involvement and knowledge sharing.
- Increased student engagement with technology platforms through targeted outreach efforts, to increase student awareness and participation.
- Collaborated with marketing team to promote educational resources effectively.
- Assisted peers in understanding product offerings and service benefits.
